Chadwick International to Hold Information Sessions and Open House Events for the 2013-2014 School Year Admissions

(Oct. 15, 2012)

Chadwick International will be holding information sessions and open house events for the 2013-2014 school year admissions targeting prospective students of Pre-K to 10th grade (age 4 to 15).

Chadwick International will hold information sessions at its campus in Songdo, Incheon on October 25th (Thur) and November 15th (Thur) along with a session at the Renaissance Seoul Hotel located in Yeoksam-dong, Seoul on November 1st (Thur).

At these info sessions, Chadwick International will introduce the school's educational philosophy and curriculum in addition to offering a campus tour with the prospective students and parents. The campus tour will provide a glimpse into the school's the state-of-the-art facilities as well as provide a better understanding for the school's environment and atmosphere.

Additionally, Chadwick International will hold an open house on December 1st (Sat) to provide prospective students and parents an opportunity to personally attend school classes. Students and parents will be able to personally experience classes currently being held as well as Chadwick International's unique curriculum and campus life.

Chadwick International, which received its first upper school students and began curriculum for its upper school in August, is anticipating a higher number of parents interested in the info sessions.

"Chadwick truly represents 'One School, Two Campuses' and has pursued the same educational philosophy. The upcoming info sessions and open house will be an important process to not only show our school's educational perspective but to find students who fit into our school's perspective," said school headmaster, Jeff Mercer.

He added, "Chadwick International is not looking for students only with excellent academic performance and English fluency. We are looking for strong students with creative ideas and respectful minds towards others, in which we believe are factors that very important and necessary when students go out to society."

Parents and students can sign up for the information sessions and open house through the school website, www.chadwickschool.org. Admission consists of an application review, written tests (on English, Math, and other subjects), and an interview. For more information on admission process of Chadwick International, please visit the school's website or call Admissions Office at 032-250-5030~2.
