Chadwick International to Offer Scholarships to Local Incheon Students

- To select middle school students in Incheon public schools and offer full 4-year scholarships

(November 15, 2011)

Chadwick International is receiving applications from students who are currently enrolled at an Incheon Public School in order to provide two full scholarships for the upcoming 2012-2013 school year.

Eighth grade students currently attending an Incheon Public School who demonstrate financial need are eligible to apply for the scholarship through a recommendation at their currently enrolled school. The students who are selected for the scholarship will receive admission and a full scholarship for all four years of high school at Chadwick International.

“We at Chadwick International are excited to provide this opportunity to two talented students from local schools who share our commitment to academic excellence and the development of exemplary character,” said Chadwick International headmaster Jeff Mercer. “I hope that many talented local students will apply for this scholarship, so that they’ll have the opportunity to receive a world-class education without worrying about any financial hardship.”

To ensure a well-rounded student body of learners with ethnically diverse backgrounds, Chadwick International offers financial aid and partial scholarship funding to students from abroad. However, this particular scholarship was prepared to support talented local students in the Incheon area as well as to offer a greater diverse educational setting.

Scholarship recipients will be chosen after a thorough review of the recommendation letter from their current school’s principal, completed scholarship application, an essay about their educational goals and dreams, and a demonstration of financial need.

To provide additional information about this scholarship, Chadwick International will be hosting an information session for Incheon school principals on December 7, 2011.
