[GCF Incheon!] Jacqueline Cameron, Chadwick International Village School Assistant Principal

Jacqueline Cameron, Village School Assistant Principal of Chadwick International, has been living in Songdo with her husband and children since 2010 and believes Songdo is a great city to live in.

Jacqueline also believes that Songdo is a safe and friendly city as she's never felt uncomfortable being outdoors late in the evening and the local residents are eager to help when she's in need.

If GCF is established in Songdo, Chadwick International expects that many children of the organization's workers will attend their school. Regarding Chadwick International, Jacqueline said that from her 17 years of teaching, she has never seen such great students as those in Chadwick International. This is also the reason why she trusts the school to send her own children as students to the school.

Lastly, she stated that she looks forward to experiencing the growth and change to Songdo city as a resident.
